- Hello Computer SRL - Romania
- Stowarzyszenie VESUVIO - Poland
- EPRALIMA- Portugal
- Kocaeli Kulturel Gelisim ve Dayanisma Dernegi - Turkey
- Karabağlar Atatürk Mesleki ve Teknik Anadolu Lisesi - Turkey

PROJECT OBJECTIVES:

O1. Increase the number of VET teachers and learners from partner organisations participating in international remote teaching/training by improvement of training offers and use of innovative and integrative team-learning digital support.

O2. Decrease the number of learners from partner schools at risk of school dump with low level of skills and social exclusion by offer them tailored remedial lessons, increase their digital skills by use of innovative training methods based on integrative team-learning.

O3. Increase international dimension of participant schools by adding accessible and transferable digital courses/modules in their curricula, and give solutions for mutual recognition of skills acquired in international contexts.

TARGET GROUPS in DIGIT+ project:

1.VET teachers and trainers in inclusive schools/organizations to receive innovative tools for on-line teaching and training tailored to special students' needs/disadvantages and adequate to different training domains.

2.VET Students, trainees, adult learners with low digital skills to use on-line teaching/training instruments.

RESULTS:

Transnational project meeting in EPRALIMA School in Arcos de Valvedez in Portugal.

Partners discussed management and administrative issues, tested and evaluated Project Platform DIGIT+, presented materials for further intellectual outputs.

1. Digit+ learning platform.
2. Guide for creation and use digital learning instruments dedicated to teachers/ trainers/ researchers.
3. Course: Students Initial training module that inshore them basic skills for the use of digital learning instruments - step 1.
4. Course: Advanced training module for digital learning dedicated to students with intuitive step by step manual for access on-line teaching and communication platforms, learning resources and instruments - step 2.
5. International counselling & guidance support network for teachers/trainers, students/trainees that sustain digital education- Platform for connection, cooperation, counselling and know-how sharing.
6. Methodology and recommendations how to teach online with focus on emotional management not to burnout because of distance teaching/learning.
7. Guide for creation of transferable learning modules/courses/units, integration of learning outcomes from abroad or distance learning experiences into main path, VET schools internationalization.

Participant organizations need to diversify their training offers, to make them accessible in situations like Covid crisis, to be more prepared for international integration into labour market of the graduates, to be more flexible in training offers in order to prevent early school living. Learning results of trainees must be easy to be transferred, recognized and integrated in an internationalized professionalization path.
